

PRABIN ROKA

(208) 602-0627 | prabinroka2004@gmail.com | Portfolio | LinkedIn | GitHub | Caldwell, ID

EDUCATION

The College of Idaho

Expected May 2027

B.A. in Computer Science & Mathematics and Digital Marketing | Minor in Arts

GPA: 3.806 | Dean's List: 3 consecutive years

Coursework: Statistical Machine Learning, Design & Analysis of Algorithms, Multiple Regression Analysis, Linear Algebra, Discrete Mathematics, Software Engineering & Senior Design

TECHNICAL SKILLS

Languages: Python, R, SQL, HTML/CSS | **Basic familiarity:** JavaScript, C++

Tools: FastAPI, Flask, SQLite, Git, tidymodels, tidyverse, ggplot2, Quarto, Tableau

Methods: Classification, regression, exploratory data analysis, feature engineering, cross-validation

API integration: OpenRouter API

PROJECTS

AI Fan Engagement Agent

Winter 2026

Python, FastAPI, SQLite, OpenRouter, HTML/CSS/JavaScript

- Built a sports fan web app with AI-generated quizzes, game predictions, rewards, and a leaderboard.
- Created a FastAPI backend to handle chat, quiz generation, predictions, and reward tracking.
- Used SQLite to save user profiles and activity history across sessions.

ReAct AI Agent

2026

Python, Flask, OpenRouter API, requests

- Built an AI agent with CLI and web interfaces that selects tools, processes their results, and repeats until it produces an answer.
- Integrated four tools for weather, earthquakes, academic paper searches, and calculations; added tool-call parsing and conversation history.

U.S. Census Income Classification

Spring 2025

R, tidymodels, ggplot2, Quarto

- Cleaned and prepared 35,000 Census records to predict whether annual income exceeded \$50,000.
- Compared Logistic Regression, Decision Tree, and Random Forest using five-fold cross-validation and tuned Random Forest parameters through grid search.
- Selected Random Forest and generated predictions for 13,840 test records.

College Admissions Predictive Modeling

Spring 2025

R, tidymodels, Logistic Regression, Quarto

- Analyzed three years of anonymized college admissions data to predict enrollment likelihood.
- Combined datasets, grouped sparse categories, and interpreted factors associated with enrollment.

WORK EXPERIENCE

Café Supervisor | Bon Appétit, The College of Idaho

Fall 2023-Present

- Assign staff tasks and help keep daily café service running smoothly.
- Train new staff on café procedures, service expectations, and cleaning routines.
- Handle opening and closing duties and maintain a clean, organized workspace.

Campus Safety Office Assistant | The College of Idaho

March 2024-Present

During college breaks

- Answer campus safety calls and assist with security concerns and general inquiries.

Data Entry Operator | Nepal Red Cross Society, Kathmandu

August-September 2022

- Entered donor health records for blood bank operations and checked records for accuracy.

CERTIFICATIONS & LANGUAGES

Google Ads Display (2026) | HubSpot Social Media (2025) | Stukent Digital Marketing (2026)

English, Nepali, Hindi
